

The cutting-edge online business intelligence tool

Atrium Insights

In dynamic business environments, access to accurate and up-to-date information is essential.

In today's challenging business landscape, up-to-date insight into how your policies, customers and markets are doing is essential. Atrium Insights brings this together in one secure and efficient platform. You get high-level overviews, clear visuals and detailed analyses in a single integrated environment that can help you with your strategic planning and streamlines your daily processes.

Atrium Insights gives you full visibility of your customer portfolio, enabling you to monitor trends, and act with confidence. It transforms complex data into clear, actionable insight, helping you identify commercial opportunities, detect emerging risks and respond proactively to change. With fast performance, intuitive navigation and strong analytical capabilities, it supports well-informed decisions that keep your business moving forward.

1

unified platform for full visibility across policies, customers and markets

2

ways to analyse at the same time. With split view, analyse tables and visualisations simultaneously

3

insight dimensions in every view for performance, risk and opportunity

Built for performance, clarity and control

Atrium Insights is available to all Atradius customers and offers a secure, powerful platform with fast load times that is easy to use. You gain quick, high-level visibility of your portfolios, with the ability to explore detailed insights at the same time, all within the Atrium ecosystem. This enables immediate action and helps you keep decisions aligned with fast-moving developments.

Making business intelligence work for you

Your single login to the customer portal Atradius Atrium, also gives you direct and easy access to Atrium Insights. Here you can:

- Assess performance for individual and group policies, and benefit from data which is updated on a daily basis
- Respond proactively to customer and market trends through standardised portfolio dataset
- Track key shifts with precision, from commercial potential and cover statuses, to non-payments, movements in risk acceptance and changes in average buyer rating levels
- See non-payment amounts directly in policy currency
- Quickly identify opportunities and risk areas through interactive world maps and clear visual graphs that highlight anomalies requiring your immediate attention
- Monitor developments across recent years
- Drill down from graph level to the highest level of detail - in just one click, enabled by the clear dashboard and refined navigation
- Move seamlessly from monitoring to taking immediate action without switching tools, as Insights is fully integrated into Atrium
- Work intuitively with in-tool tips and user guides
- Export your selected data to Excel or copy graphs directly into your own reports

Analyse your portfolio your way

- Customisable table views - Create a personalised workspace with flexible, drag-and-drop table configurations tailored to your business needs
- Split view for deeper insight - Analyse and visualise your data simultaneously, enabling faster understanding and more informed decision-making
- Clear visualisation tools - Leverage dashboards, charts and maps to quickly identify trends, risks and opportunities across your portfolio
